

**Welcome Family,**

**My name is Waylend Reed and I am your School Liaison and YSF Coordinator for Naval Station Guantanamo Bay, Cuba. I've been in the kid business for over 20 years. As your School Liaison, it is my job to ensure educational processes associated with your move are effective and efficient. Whether you decide to use the WT Sampson brick-and-mortar school or enroll in a Home-School program, I have the connections to help support you and your family.**

**If you need assistance with school registration, I can assist you with that. If your child is too young to attend school, I can assist you in registering for our Child Development Center (CDC). I can assist you with your elementary, middle or high school registration needs and perhaps a friend or two to help show you the ropes for a successful island life.**

**Youth in elementary grades are eligible for care at the School Age Care building or "Youth Center" as it is commonly known. If you are in seventh grade to high school, we have a safe fun place called the "Oasis Teen Center". It is a fun teen-based program for middle-school youth and teens. I can also assist with contacts for Scout programming and Chapel services.**

**You can reach me at the contact points listed below. I am very excited that you are here with us and I know that you are going to enjoy your time with your new friends here in GTMO. If you need anything, please contact me. Your new friend "in the kid business"!**

**V/r,**

**Waylend F. Reed**
